PROFESSIONAL SUMMARY

Full Stack Web Developer leveraging a background in production management. Recognized for improving efficiency and creating an agile work environment. Recently received a Certificate in Web Development from the University of Texas at Austin honing skills in Javascript, HTML, CSS, and more. Excellent interpersonal communication skills and collaborator who works well on team-based projects as well as independently.

TECHNICAL SKILLS

Node.Js., Express, JavaScript, jQuery, React.js, React, JSX, GIT, GitHub, MongoDB, MySQL, Mongoose, HTML5, CSS3, Bootstrap, Materialize, APIs, Heroku, Terminal, AJAX, Restful API, ES6, React Hooks, JSON, Sequelize

RELEVANT EXPERIENCE | PROJECTS

BestFlix | Full Stack Developer | Deployed Link: https://bestflix-mo.herokuapp.com/ | Github Link: https://github.com/oballematt/bestflix
A netflix search app for users to find the best titles to watch before opening netflix.
- **Role**: Used React to create a single page web app that includes a home page, movie page, tv show page, and a profile page. Used front end REST API calls to retrieve data from unogs API to display on the various pages. Stored this information in MongoDB and allowed users to favorite any title they like and have it appear on their profile page.
- **Utilized**: HTML, CSS, JSON, Firebase, React, Express, Node JS, MongoDB, Axios, Bootstrap, unogs API

Bad Jokes and Brews| Full Stack Developer | Deployed Link: https://bcermak.github.io/BrewsNDadJokes/ | Github Link: https://github.com/oballematt/BrewsNDadJokes
A brewery searching app to find the best local breweries in your area. Brighten up your day while searching by generating a random dad joke with the random joke generator.
- **Role:** Used jQuery AJAX method to make requests to server-side APIs. Created an HTML page and styled with CSS and integrated Mapbox API and OpenWeatherMap API and manipulated the DOM using JavaScript leveraging the DOM API.
- **Utilized**: HTML, CSS, Materialize, jQuery, AJAX, Mapbox API, OpenWeatherMap API, Open Brewery API, icanhazdadjokes API

Combat Fitness | Front End Developer| Deployed Link: https://combatfitness.herokuapp.com/ | Github Link: https://github.com/Sarah-Nguyen1993/Combat-Fitness
A workout app to track recipes and workouts to reach your health goals.
- **Role**: Created various HTML pages and styled with CSS and BootStrap. Utilized jQuery and AJAX method to make requests to server side API. Created a calorie calculator using jQuery and manipulated the DOM to display this information using JavaScript leveraging the DOM API.
- **Utilized**: Bootstrap, Jquery, NodeJs, Express, MySql, Sequelize, Youtube API, Spoonacular API, HTML, CSS, JavaScript.

PROFESSIONAL EXPERIENCE

Austin Eastciders; Austin, TX   4/2016 - 9/2020
Production Manager
Supervised and mentored warehouse team to exceed production goals and uphold the best practices in safety procedures. Collaborated with technical and administration teams to evaluate, develop and implement new production plans, quality standards and maintenance actions to identify and address operational problems and maintain targets. Regulated quality control data with QA managers and Administration teams to monitor and detect issues with quality of final products and improve overall quality management practices.

- Increased efficiency by raising production speed levels and lowering employee fatigue by implementing a new system of interval breaks to let employees rest longer while having more hands on the floor to handle the workload.
- Successfully directed the implementation of new supply inventory tracking by standardizing a routine schedule to always be accounting for gained and lost inventory at the end of each week.
- Increased machine efficiency and decreased long term maintenance shut down by implementing a new form of shutdown and startup procedure for each piece of production equipment to ensure proper cleaning and maintenance were happening during use to avoid wear and tear over time.

EDUCATION

Full Stack Web Development Certificate - University of Texas at Austin; Austin, TX | **2020**
A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Passport, Node Js, MySQL, MongoDB, Express, & ReactJS
